

REMPEOPLE

Use Case – Front End Dev. V.01

FEB 2019

Your task

Build a little admin panel with 3 pages.

General notes

- You will be provided a JSON file for the chart and the table. Please attach these data via **async** (ajax) requests. Do not embed it directly in to the code.
- Please find the related chart functionality in [highcharts.com](https://www.highcharts.com/docs/advanced-chart-features/drilldown) documentation (Drilldown Column Chart). Table data and the design dummy data might differ. Please take the json data as primary data.
- Your admin panel should have 3 pages with **deep-linking**:
 - Login
 - Chart sample
 - Table sample
- Interface should be responsive but do not focus on mobile.
- You do not need to implement menu & search area in the design.

Technical implementation

- Preferred technologies will be Vue.js , Webpack , SASS.
- Focus on user experience and interactions. If you add animations or UX-ideas, it will be a plus.

Design

Login Page

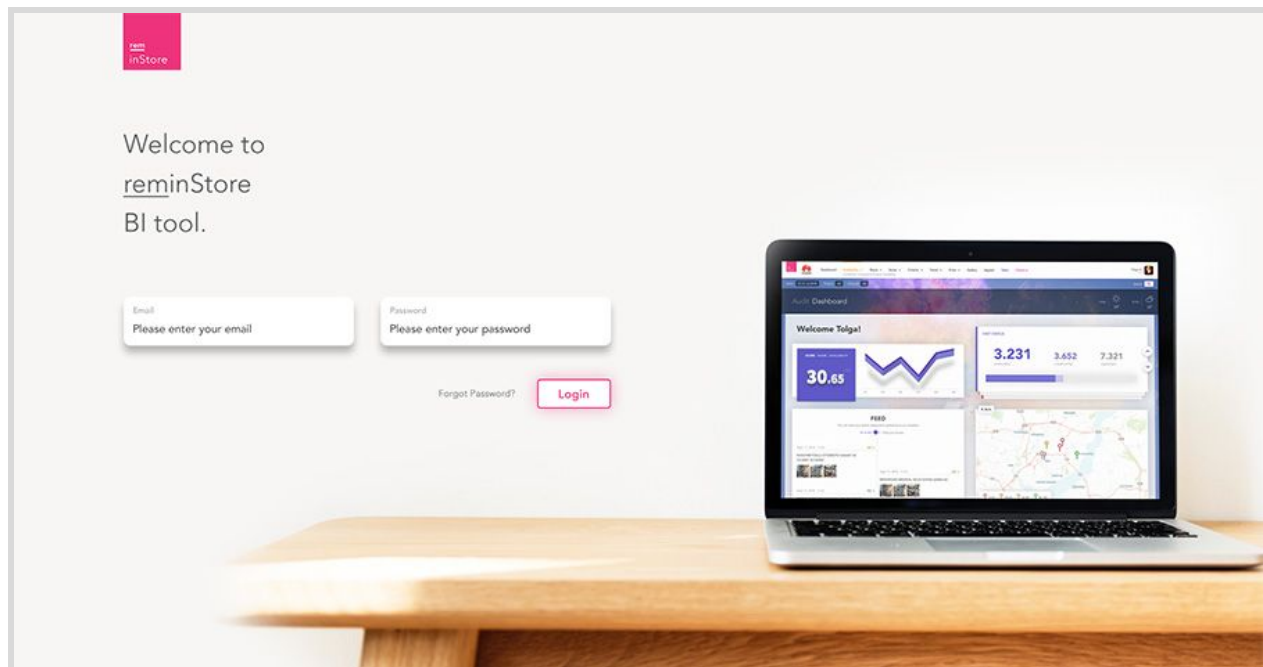

Chart Page

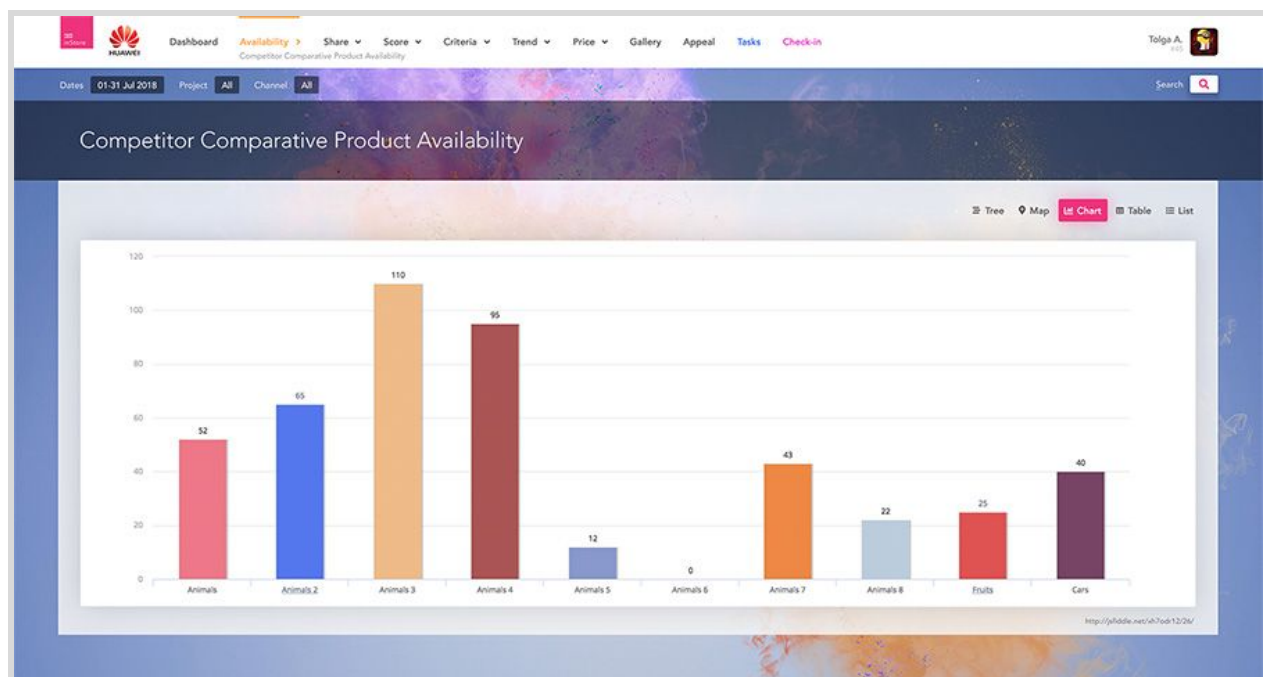

Table Page

Sales Hierarchy 1	Sales Hierarchy 2	Sales Hierarchy 3	Sales Hierarchy 4	Sales Hierarchy 5	Sales Points	Score
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	54.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
CHAIN	Deniz Gider	Cenk Varol	Hamza Burak Beşer	Ahmet Seyhan	1	15.00
